

MODEL : L-12 兩路全頻系統
2-way Full Range Loudspeaker System

Features:
2way full range design
powerful and high
efficiency output
Vented LF radiation
etc.

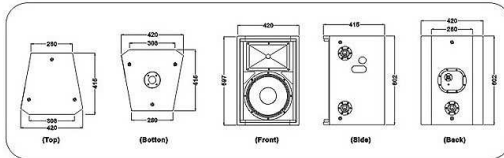

Applications:
discos,dance rooms,clubs,
permanent installations,
two options:with inside or outside crossover

Description:
L-12 is used in permanent installations.Has a safe
and reliability setting.This system can switch
between inside no-powercrossover or outside electron
crossover processor.

SYSTEM系統	Specifications
Frequency Response 頻率	40Hz-20 kHz (±3 dB)
Sensitivity 灵敏度	98dB SPL (1W@1m)
Nominal Impedance 阻抗	8ohms
Power Rating 功率	250 watts (rms额定), 500 watts (program节目), 500 watts (peak最大)
Nominal Dispersion 扇形角	90° horizontal (水平), 40° vertical (垂直)
Crossover Frequency 分頻点	1.8 kHz

DRIVERS 驱动单元	
Low Frequency 低频	1x 120mm 17C磁球单元
High Frequency 高频	1x 1.75inch 44芯钹丝高音

PHYSICAL 箱体	
Enclosure Construction 箱体	18 mm FDM wood with structured(FDM结构)
Finish 表面	gray rough spray/paint (灰色粗面粉末喷涂)
Grille 网罩	black iron netting(黑色铁网)
Input Connectors 连接器	Speaker NL4 x 2
Dimensions 尺寸 D x W x H	410mmx413mmx397mm
Net Weight 重量	32kg

MODEL : L-15 兩路全頻系統
2-way Full Range Loudspeaker System

Features:
2way full range design
powerful and high
efficiency output
Vented LF radiation

Applications:
Apply to,multifunctional hall,band,
hypesatral performance.

Description:
L-15 is used in permanent installations.Has a safe
and reliability setting.This system can switch
between inside no-powercrossover or outside electron
crossover processor.
